

TABLE OF CONTENTS

The Table of Contents lists each Section of the Lincoln County Water Management Plan update and the pages in which the specific items start. Each Section starts over with the page number being “1.”

SECTION	PAGE
PREFACE	
Lincoln County, Minnesota	1
Plan Administration and Role of the Task Force.....	3
Accomplishments	
May 20, 1997 to December 31, 2003.....	4
Start of Plan to May 20, 1997	10
TABLES (located within the Preface Section)	
Table 1 – Lincoln County Overall Map.....	2
I. EXECUTIVE SUMMARY	
Version and Purpose of Plan.....	1
Description of Priority Concerns	1
Summary of goals and actions and projected total cost per priority concern	2
Summary of consistency/inconsistencies with plan to other plans.....	5
Summary of recommended amendments to other plans/controls	5
II. ASSESSMENT OF THE PRIORITY CONCERNS (PC)	
PC-Groundwater Protection for the Verdi Well Field.....	1
• Well Vulnerability	1
• Vulnerability Assessment of the DWSMA.....	2
• Well Vulnerability Assessments.....	3
• Use of Wells.....	8
• Wellhead Protection Area Delineation Criteria	8
• Quality/Quantity of Water Supplying Public Water Supply Well.....	9
• Land/Groundwater Uses in the DWSMA.....	9
PC-Surface Water Quality Deterioration being Nutrients and Bacteria focusing on two TMDL sites: Lake Shaokatan and the South Branch of the Yellow Medicine River	
• Impaired Waters-Total Maximum Daily Load (TMDL)	9
• Lake Shaokatan.....	10
• South Branch of the Yellow Medicine River.....	14
PC-Erosion and Sediment Control on agricultural land primarily gully erosion and concentrated flow with several priority areas being the South Branch of the Yellow Medicine River Watershed, Norwegian Creek, Coon Creek, Lake Benton Lake and Dead Coon Lake	
• High priority erosion problems/Watersheds	26

Table of Contents

- Sedimentation, Wind and Water Erosion.....32
- Southwest MN-CREP32
- Tillage Transect Survey34
- South Branch-Yellow Medicine River34
- Norwegian Creek, Coon Creek, Lake Benton and Dead Coon Lake....37

PC-Lake Management Improvement (water quality) and Recreational Opportunities targeting Lake Benton, Lake Shaokatan and Lake Hendricks

- Lake Benton41
- Lake Shaokatan.....46
- Lake Hendricks49

PC-Surface Water Runoff and Drainage addressing runoff volume and water quality through drainage management

- Drainage Issues53
- Wetland Conservation Act.....54
- Wetland Banking Program.....56
- Public Drainage Ditch Systems56

TABLES (located within the Assessment Section)

- Table 1 – Aquifer Vulnerability Assessment within the DWSMA4

- Table 22 – Hendricks Corporate Limits-WWTF52
- Table 23 – Lincoln County Drainage System.....57
- Table 24 – County, Public, Judicial and Joint Ditch Systems58
- Table 24-cont – County, Public, Judicial and Joint Ditch Systems59

Table of Contents

III. GOALS AND OBJECTIVES ADDRESSING PRIORITY CONCERNS	
PC-Groundwater Protection for the Verdi Well Field.....	1
PC-Surface Water Quality Deterioration being Nutrients and Bacteria focusing on two TMDL sites: Lake Shaokatan and the South Branch of the Yellow Medicine River.....	2
PC-Erosion and Sediment Control on agricultural land primarily gully erosion and concentrated flow with several priority areas being the South Branch of the Yellow Medicine River Watershed, Norwegian Creek, Coon Creek, Lake Benton Lake and Dead Coon Lake	2
PC-Lake Management Improvement (water quality) and Recreational Opportunities targeting Lake Benton, Lake Shaokatan and Lake Hendricks	3
PC-Surface Water Runoff and Drainage addressing runoff volume and water quality through drainage management.....	3
IV. IMPLEMENTATION PROGRAM FOR PRIORITY CONCERNS	
Abbreviations.....	1
PC-Groundwater Protection for the Verdi Well Field.....	2
PC-Surface Water Quality Deterioration being Nutrients and Bacteria focusing on two TMDL sites: Lake Shaokatan and the South Branch of the Yellow Medicine River.....	4
PC-Erosion and Sediment Control on agricultural land primarily gully erosion and concentrated flow with several priority areas being the South Branch of the Yellow Medicine River Watershed, Norwegian Creek, Coon Creek, Lake Benton Lake and Dead Coon Lake	7
PC-Lake Management Improvement (water quality) and Recreational Opportunities targeting Lake Benton, Lake Shaokatan and Lake Hendricks	11
PC-Surface Water Runoff and Drainage addressing runoff volume and water quality through drainage management.....	13
V. IMPLEMENTATION: ONGOING ACTIVITIES COORDINATED BY THE PLAN	
Lincoln County Comprehensive Development Ordinance	
• Flood Plain Management	1
• Shoreland Management	2
• Urban Expansion Management.....	2
• Rural Preservation.....	2
• Business and Industrial	3
• Feedlots.....	3
• Windpower Management.....	4
• Solid Waste	4
• Nuisance.....	4

Lincoln County Comprehensive Development Ordinance5

APPENDIX – PRIORITY SCOPING DOCUMENT

Priority Scoping Document – BWSR Meeting Review 1
List of Priority Concerns chosen2
Description of how and why the priority concerns were chosen2
Public/internal forums-dates, participants, affiliated organizations2
Summaries of proceedings/supporting data3
Process used-coordinate/resolve differences priority concerns/other concerns .3
Issues identified by stakeholders4
Description of how the concerns may be addressed to other entities7
Attachment 1-Priority Concerns-local/state/federal agencies8
Attachment 2-Priority Concerns-state/local meetings9
Attachment 3-Water Plan Issue Meeting-State/Federal Agencies.....10
Attachment 4-Public Input Meeting Minutes12
Priority Concerns – Addendum13
